Please write on this sheet and return it to me.

You were telling me about the time Sitting Bull had only three ~~4~~ arrows left and shot two of them to his Crow enemy, and then killed him with the third arrow. You remember Gray Whirlwind mentioned this. I wish you would let me have the whole story of this fight, just where it happened, and who was there to see it. Was Gray Whirlwind there? Are any men living who saw that happen?

You know how many of the books say Sitting Bull was not a brave man. This story is one which shows him very brave. So, if possible, I would like to be able to say that we got the story from men who saw the thing happen. Please tell me all you can find out about this battle.
