(Well, you could see for miles around here, couldn't you?)

And the grass was way high. It was about that high in the road.

(3 feet high well.)

The cattle would go over the road.

(Yeah.)

There wasn't hardly any roads through here when we moved out here.

(Well, no there wouldn't have been many roads.)

And there wasn't a house around here till we got here.

(Well, not was Collinsville started when you--)

It was already started.

(It was already started.)

(Well, my goodness.)

(Yeah.)

For streets and it had been rainy season and we got stuck right in front of the post office.

(Well, my goodness.)

But I tell you it sure growed. It just went like this.

(Yes, its a big town now.)

Pretty good size and they have everything you need.
