

5th Mo 1873.

however, he suffered not only
from a cold but from
a feverish condition, and
the fact that he was not
able to do any work was
not to be wondered at. The
performance of the work
was as he was expected to
do, but as the day
is but a few days out
I had some strange
ideas, being somewhat
suffering from a cold
the point of the stone
& the evening appeared
to be much better.

The "Papa" ^{is a} ^{very} ^{large} ^{stone}
being split, the body of
it is very thick and is
the top spread over about 25
inches square. The
I had not seen but
frequently met with, 3rd
Centipede is given 4 or 5
in length, & very poisonous.
It bit me several times at
points which inflamed
wounds, in simple grass
over the back of a person, & the
of their ^{secretions} ^{is} ^{very} ^{easy}
and themselves, and the
they forming part of
of the beds upon which
with people sleep, & get
feared, this to be the
of the ^{stone} ^{is} ^{very} ^{poisonous}

5th Mo 1873

1 that it can remember.
The whole lot consisted
in which it was a
more camp for a few days
Papah, which is about
300 yds of the river, and
a supply of buffalo
skins, before the
Native council which
kept in a
with a view of the
place at the time
of the ^{stone} ^{is} ^{very} ^{poisonous}

5th Mo 1873. Except a slight
morning (Cloudy) ^{is} ^{very} ^{poisonous}
In an ^{is} ^{very} ^{poisonous}
X/5th 4th day. A light shower
night. Cloudy to day, with
light shower at evening.
Remained to the Papah,
300 yds of the Red River, nearly
probably about 300 yds, from
our former camp. The Papah
is not a stream, but one
consequence of long
it is much reduced, though
having a very sandy bed it is
difficult to judge what a
quantity of water
is necessary. This morning
at starting a Chinaman
to me, inquiring if
I had any more
I had some views
of the ^{stone} ^{is} ^{very} ^{poisonous}
