

One Horn - Vision

The story about One Horn is true but that happened when his grand father was ~~teacher~~

1. Horn lost his child ~~and~~ so he took a knife and went out in the brush and did not come home until morning being gone so long they went out to look for him & finally they found him laying on a hill side and below him was a buffalo. One Horn was cut in his belly with a horn the buffalo was staked in the eye in the center and on the side. It was dangerous to go out alone at bulling time the buffalo will run about 4 or 5 miles by the next day but W.B. never saw them stop. W.B. never saw wolves attack buffalo, a buffalo would last only a month finally of 4.

about 1870's W.B. thought he was going to die - he was sick and he lost his mind. He saw a man come from the West all in white ~~and~~ he said 'come after you' so W.B. followed him they stopped ~~and~~ and looked across a creek and he saw 4 men coming and 4 coming from the North after that the man he was with said look these men said they want you to be your friend and after a while a skullation

according to W.B. author

of a buffalo come out of the ground and flesh covers him and a bird the buffalo said "look I want to be your friend and they all go in the ground. I want to be your friend" they said "you got a good name because you took it from an owl."

they say I am strong and stout so they appoint me look what I eat I eat these so I am strong. I eat these I root and he told W.B. to do the same thing after that they made around and they ~~buffalo~~ look around and the buffalo said there are many kinds ~~and~~ then they were gone and that was all.

This was in April but he was not strong and when the need came up he sent his wife out after them and she got 4 and W.B. help eat them and he got along alright.
