White men's way of fighting? - Don't no ^{they}

How to fight - saw lots of them.

Mistakes? - ^{should} act more lively like Ind. but
too many orders + don't try to save them -
selves, they stand up straight + run
straite - easy to shoot them - 1/2 obey
orders + 1/2 don't. (deplay-9, he means?)

Rather fight white sold or Crow Ind?

Either is just shooting hand in
hand to hand fight - Crow worse

Diff ways to fight - 200 go in
day time + get Crow horses then crows
run after them. If they start early
enough will get the horses home -

ordinarily crows come at night - once
in daytime when WB little but all crows
killed before they got home

Ind fights lively - more than white
never got with Ree - peo. around agency
did most fighting with Ree. | Yanktons
Ree about like crows.

Shoshones better than crows -

WB. fight other besides crows? - Flatheads -
about same - fire from long ways then
when turn around - same run.

other all tribes they got with had
more guns than 500.

never knew of sold. selling guns to 500
did no of Traders
also during fights with white sold. at Ford
Bennet - sold many to Ind.
who had price - in Agency or out.
