2/ So much that has been said
and written about Sitting Bull,
and accepted as facts by people
all over the United States, that
should the facts regarding him
and his life be told they would
be of much historical value.

It is high time for historians
to turn the lights of research, on
the lives of the ones ~~who~~ among
both Indians, and white men,
whose names have been so
prominent on the western fron-
-tiers during the days of Indian
warfare. Those who follow
the ones of today, should see
the truth secured, and recorded,
before all ^{the} evidence is wiped out
forever.
