Dear Mr. Campbell :

Am interested to know that SITTING BULLw will soon be off the press and that you are remembering me with a copy. I shall prize it I am certain.

I am enclosing a few names to whom your publisher might send notices. I believe that it is a very special list, as they are all interested in western Indian history, and are all friends or acquaintances of mine. My name being mentioned will attract them I feel.

I trust that you will be very successful with your publication, and it is such a vitally alive subject just now in Clubs and Study Societies, that I think you have appeared at the right moment.

I read with much interest a story by Stanley Vestal in ADVENTURE. I seldom purchase the magazine, but it was mentioned by a friend. I have not the first part, but am trying to get that issue from the publishers. There was much clashing just about this, between the Military authorities at frontier posts, and the Agents of the Indian Department. This condition caused Major McLaughlin much trouble.

With kind regards, I am,

Cordially yours,

A B Welch
