

WASHINGTON, D.C.

I have written to Mr. Fitzgald that I would make this recommendation to you & also suggested that he write to you and get your comments before anything definite is started.

This is one of several projects I wish to start for the benefit of the Indian during the coming winter. The probable selection of Senator Thomas is reassuring.

I am just finishing Gen. Hitchcock's travels in Indian Territory in 1941-42 - a most interesting diary. Gen. Hitchcock was a graduate of West Point and at one time its Commandant. His friends Gen. Zachary Taylor & Gen. Scott were his friends. John Gilmer presented the book to me. You should read it.

I hope to have the pleasure of reading the Pittsburg Bull story in the near future.

Hoping you will see your way clear to approving the above suggestion of Mr. Fitzgald & hoping to hear from you
Cordially
Cherry
