1879

Supt. Walsh Report.

Page 14, cont'd.

On the 27th instant, I again visited his camp taking with me the "Blakk Wolf" (brother to the "Hump"-one of Gen Miles' scouts), also requesting Long Dog, W whom General Whistler, second in command to Gen Miles requested to see.

Generals Miles and Whistler had a long conversation with these two men, and requested them to advise their perople to surrender themselves; informing them of the conditions on which they would be received, and the treatment they would received with at the Agencies.

30th July-Capture of Half-Breeds by U.S. Twoops.

miles

This day two Half-breeds arrived from Milk River, reporting that Gen Limes in had made prisoners of about 300 families of Canadian Half-breeds, and that they had been sent as messengers to request in the to intercede with Gen Limes for ham.

I at once left for Gen Miles' camp, where I arrived the following day, adn on interview with him, he kindly released 130 families who requested to go north.

16th August-. I proceeded this day to Wolf Point with a despatch for Gen Miles, and also to search fro 5 horses run off by Yanktons from Mr.L.Morin of the place. I rereturned on the we alst instant.

On the 22nd instant, fm of those Half-brrreds retained as prisoners by Gen Miles, about 60 families were sent to Judith Basin and 70 families to Turtle Mountain, both under escort of U.S. troops.

Page 16 27th November - Indians.

with in the last year very few buffalo have been on the section north of the line; consequently the Indians have camped the greater cart of this time in the White Mud River.

It was the intention of many (perhaps 200 lodges) to put up during them autumn a supply of meat sufficient to carry them through the winter, and campin Guilette's Coulee, six miles from this post, during the cold months; but the in this they could not carry out their wish ow ing to the grass in the while section having been destroyed by fire

With the exception of Broad Tail and about 50 lodges, the entire Teton compains now two miles south of the line on White Mud River, where they hope to be permitted to remain during the xxxxxxx winter.

They were forced to this move to provide themselves with wood.

Considering the agitated sta e in which these people have been kept during the last year be Crow and other Indians stealing their horses and killing their young men while following the chase, and General Miles' eapedition driving them from the hunting grounds of Milk River to the boundary line, their conduct has been expremely good; but the this conduct on the part of m great many is only reached by their coear of being sent but to the United States by the Canadians, in the event of their committing and depredation north of the line.

There are some very good people in this tribe, people whose constant cry is for peace and rest, and who will make any sacrifice to maintainnit, yet there are others who mixix makexanxxxxxxicannot be trusted.

Half-Breeda.

With the Half-breeds, like the Indians, the disappearance of the buffale nesth of the line has forced a great number of them south of the line to Milk River, where they have erected houses and formed a village, consisting of 150 families.

I have the honor to be, Sir.

The Commissioner, N.W.Mounted Police, Fort Walsh. Your very obedient servent.

J.M. WALSH
Supt. N.W.M.P.
