Sun  
One Bull not in dance by himself -  
- what your sensations at Sun Dance?  
- Long ago I looked below the sun - I  
saw something there - I saw bunches  
of buffalo south but more north &  
west. - I went out for war & I was  
praying for Sun Dance that I would  
get home without wounds. -

after they break camp - He was told  
there would be more buffalo in NW  
than S.E. -

Were eyes sore after dance? - Couldn't  
see very plainly afterward for some time  
without food during dance? At  
time I took part - one afternoon before  
noon I - a little lunch - then  
not a bite or drink that afternoon,  
2nd day and on 3rd day took a  
drink.

after

They were pierced there was a strong  
pain for the first jerks then the nerves  
seem to be killed and no pain  
thereafter - even jerking out - some  
bleeding but put stuff on that  
stopped it.

SB. was not an M.D. but his  
dad was an M.D.

Was SB. a propper with stores?  
Don't know. -

When WB had buffalo vision -  
was announced to the people & they  
broke camp some went west &  
some east - prove of no other  
visioned that dance - very often  
at the Sun Dances someone had  
a vision which was the truth - in  
fact the purpose of sun dance
