I was satisfied that the actual number of Indians would be within two or three hundred of the above "balance at agency." On the 31st of May last I began, in obedience to orders from Col. R. S. McKenzie, commanding district Black Hills, a census of the Indians here. I mainly completed the count after eight days' constant work, but as there were changes by accessions and corrections, the census was formally closed on the 24th day of July, 1877. The following table shows the result of the count by the different bands. Some changes by transfer to other agencies occurred before the final closing of the census, and there has been a slight accession by transfer to this agency since the closing of the census; all such changes are noted separately in the table.
