Dear Friend:

Our Indian Club has just turned out several new Indian Charts. We have told you what we are trying to do mainly to get down in pamphlet and chart form, the true history of the Six Nations. We want the people of this country and of the world to know the real history of a great people. Our object is to gain for the OLD PEOPLE admiration, respect and honour. We feel that this will also help our people of this day, will give them self respect and strength of heart.

Because of your help in the past, it was possible to erect (two years ago) the Deganawidah memorial. Last year we erected the Indian Prayer Memorial. We are inclosing pictures of these two memorials with inscriptions so that you can see what they look like. These memorials are a part of you and that part is appreciated. We are now making a drive to raise funds, through the sale of our new charts, to erect a new memorial to America's Oldest Ally, the Iroquois Confederacy. We are enclosing the wording of this, our latest projects, so that you can see what we are doing. Our goal is four hundred dollars.

We are asking our friends to help us see this memorial a fact. You can help by purchasing the set of charts, that we are sending to you, at one dollar, this to be applied directly to the new memorial. Help serve a worthy cause. Your aid is appreciated by all of us.

Sincerely yours,

Secretary
