Dear Vinson:

I am doing a little research on Fort Dodge, Kansas which as you know is the post from which Dodge City took its name. You rattled off a list of places in Washington from which you had secured data on forts in Oklahoma. I wonder if you would give me that list of addresses so that I can run down whatever there is on Fort Dodge up there. As I remember, you named six or eight organizations which had helped you in your research.

I should be grateful for your help in this matter.

I greatly enjoyed your visit here and hope you will contact me again whenever you are down this way.

Cordially yours,

W. S. CAMPBELL
