W.B. never saw anyone swim in the mission when it was in it but W.B. has swam in it when the slush was coming down - They were going on the war path and was going to cross the ^{Yellowstone} mission R. when they got there the ice was gone there but it was on both sides

They got to the shore and try to it was cold but they talk it over and they might a well try to He put his mocking and fire maker trud on his head, the horse he ride across and finally the horse swim W.B. held the mane mane hand and held the reins in his tell mouth and help the horse swim (paddle) when he get to the other side he thought he could stand up but he could not, then he had to swim he had a hard time.
