

Home about 5 p.m. pleasant & happy visit - It was arranged to have Xmas dinner at Boons - except the all quiet - except the small boys fight back of the Christian Church - and a knife figured in the Melu - the smaller boy drawing it while the larger boy was on him - & the larger boy disarmed the small one & the knife away into the street most of us - & after some words they separated & each went his way - peacefully in peace - This day passed off fine & without a war otherwise.
