

This is 5 p m + no Boon, his day usually -

Gasoline costs money & it's use is all the time when driving -

The political arena appears to be nip & tuck - + Smith & his cohorts are not satisfied as to the situation & in places are pawing up the dirt viciously -

Hoover & Curtis are moving along quietly & keeping in the middle of the road -

Smith in his 11 car entourage & Hoover on the old elephant, slow but sure - + will get there all the same -

Smith's Backers are all mad & the Hoovers all glad, but busy -

~~XXXXXXXXXX~~

Sept 23 + 24 - Weather fine - both days - up to 5 p m this eve -

Mr. Wood & wife Su-mel stopped for a few minutes enroute to Boons to see Senora yester eve -

Smith barking for the White house - with his wife & daughter - Hoover & his crowd are cornering him in many ways - Curtis too is on the Rampage, enough to almost knock him out of his speaking - No more speeches out in the air - for him, as his voice fails him -
