

Well Boogie, Lulu and Jr.

Here it is Wednesday, Oct 11th, 1922-- and an extra nice day indeed--the sun is extra warm, but no news at all of any kind--

The women talk more than the men here, and say the hardest things as against Fields and nothing for Walton--they keep quiet on Walton, but Fields is a black Republican as they view him--

From the World I am pleased to see so many men of good reputé and solid standing, who are coming over to Fields, and are to support him in the election Nov 7th--some of them acknowledge themselves to be Democrats of the yellow dog persuasion, and that they can't swallow Walton and his Shawnee Platform--they assert positively that the socialists handle Walton, that he is their candidate, and that they have busted the dem party wide open--

Some of these men say they are not republicans, but will support Fields because they know Walton and just what he is--that he is no good because of his disastrous policy based on socialism--

I see from the press that not all of the socialists will vote for Walton, and from the rumblings here not near all the Niggers are with him either--great many of them will vote the Rep ticket because they believe Walton is hoodwinking them--they say Walton only wants their vote and no more except as janitors and in secluded places if they want them at all--Democratic States committee heads, members of the state legislature dems and many others I see are rising up as against Walton, and all over the state--

Fields will cut his, Waltons vote heavily among the socialists the farmers and labor, and too heavy amongst the best class of the real dem people, not of the hot-dog element--the best element of the dems who are not turning have little to say for Walton, and so because so many are arrayed against him because they say they know him--
