

There are a lot of white folks who do not attend your Ministerial Alliance Churches, and who can not "benefit", but, can be harmed by the West End Redevelopment and the North Central Neighborhood Planning council from which Brsitol, Boards and you have been assigned the task of shackling us---by "the powers that be".

You watched and condoned Mayor McFee lip off: Free Enterprise on the sale of the Hart Hotel. But, we, the citizens watched Democracy be further destroyed in Battle Creek with the minipulation of the petition which Bill Boards took from S.T.O.P. and handed over to the Mayor. 

Furthermore, we watched Bill Boards, again, as our commissioner, vote on Tax Abatements for factories paying slave labor wages---where workers must be subsidized with give away food and the worker's health insurance is Medicaide---at that same commission meeting.

Blacks like you and Bill Boards are to be blamed for those "powers that be" using you to turn Michigan---Especially Calhoun County and more specifically---Battle Creek, from a Producer of usable products, such as Airplanes parts, precision auto parts and Lift Trucks to usee products(human flesh), such as services for those Fort Custer, foreign owned sweat shops---with no benefits---through the Michigan Corrections/Justice Department. Michigan leads the nation in the production of Prisoners.

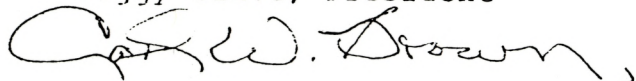

Now, a \$6,000 per month mortgage has to be met to Don Harris for payment on the Hart Hotel.

Are you going to assist "The Powers That Be" fill up that historical Hotel/Halfway House with decent law abiding citizens whose only crime is that jobs are purposely kept out of potential worker's reach by "The Powers That Be"?

Bullock---Unshackle Yourself!

Peggy Glave, President

 C. W. Brown, Sec.
