=====

A group that presents itself as a Spanish speaking TV production company from Mexico filmed our meeting last week. They allege they are doing a piece on Native Americans for a special or cable channel. They would like to interview you (in English) and would like you to give them the questions to ask you (an old Spanish custom). If you are willing, let me know they questions you would like to be asked and when you want to do it. They would really like to come to Oklahoma and do some footage. The Historical Society would be the ideal place. I asked Ross and his reply was "As long as they don't want any money".

Is it time to finalize plans for your visit to Houston? We have a reception scheduled from 4:00 to 5:30 p.m. on Friday. If you need transportation, etc. on arrival and departure let me know and anything else you would like to do.

I plan to be in (if out, not for long) the rest of the day.
