Cherokee Nation of OK
Tahlequah, OK

Dear Chief Mankiller,

The American Indian Heritage Center, Inc. has recently submitted an application for funding of a proposed two-year project. The proposal was made to the Administration for Native Americans, a federal agency considered as our primary source of funding since 1991. As you know, the AIHCI has made significant progress in its development toward establishing an Indian cultural center in this area.

Please review the attached fact sheets which provide a synopsis of our past accomplishments and proposed future objectives. We ask for your support by submitting a letter or resolution of commitment to participate in the objectives and activities proposed for the next two years. With your commitment to assist in providing the valuable resources of your organization, we will greatly enhance the results of our community service. Please address your letter to M. Sharon Blackwell at the above address. Thank you for joining us in support of this historic venture.

Sincerely,

Curtis Zunigha
Executive Director
