Dear Mrs. Mankiller:

My wife and I, both part Cherokee and both from the Tahlequah and Miskegee area, are very proud of you.

When I taught at Oklahoma City University, a new President was named: John F. Olson (now deceased) came from Syracuse University in New York. His new presidency did not make one line in The New York Times. He received lots of local coverage but none in the Times.

Not everyone makes the Times. But, you did. And we thought that if you needed this pinnacle marking of success to some people, we would clip it out and send it to you.

Best Wishes,
