

between the Native and the non-Native view of earth and nature's spirit. How can this gap be bridged?

5. Hopes or Dreams for the Future:

a. What more would you like to say about yourself and your hopes and/or your Dreams for the future of all Native Americans and for our earth?

b. What would you like to say to everyone about what you feel are the changes Natives need now from the non-natives and vice versa that will insure a better world for coming generations.

c. Are we at a crucial moment when positive change must be made, are past that critical moment, or is there a spiritual earth-cleansing occurring that we should be more aware of?
