June 21, 1993

Dear Mr. Kempe:

As a duly elected member of Crow Tribal Executive Committee, I hereby request copies of any and all information which Sierra Energy Company has in its possession about an electric power plant proposed on the Crow Reservation by Sierra Energy Company, or Sierra Pacific Resources Company.

There are many rumors around and I want to know the facts. Also, I specifically hereby request a copy of the "Memorandum of Understanding" entered into for the proposed project by Clara Nomee, who has not informed the duly elected members Executive Committee, or Crow Tribal Members, of its contents.

Why is the information about this Project apparently being kept secret from the Executive Committee, and from all the members of the Crow Tribe. Does your company know about this apparent secrecy?

This information should be available to all members of the Crow Tribe, as well as those of us on the Executive Committee, so that we can all make an informed decision about the merits of the proposed Project.

Sincerely yours,

Sylvester Goes Ahead
