Dear Wilma:

My name is She Who Walks Far, I am considere Cherokee/Shawnee, adopted by Ginny Little Deer. I'm a writer, I've written several books on experiences I have in the out of body state, I've enclosed the first two which are published as a gift to you.

I'm writing to you because I have a very strong desire to work for the Native People. My background is primarily in radio broadcasting, administrative work, and sales. But I feel that I need to do something different with my life now. My adoptive mother, Ginny Little Deer, recommended that I write to you. She felt that you might know of what I could give to the people. I live in Colorado now, and am ready to relocate wherever I can be of service. Both her and I have had dreams for months that I am to give of myself to the people, and this is why I've moved from the East coast to the West. Now, I just need to find the place where spirit wants me. I've had dreams of working to improve medical care on the reservations, and of helping with orphaned children. I do not know exactly what I am to do, just that I am to do something.

I would be very honored if you would consider my request and know that my heart is pure. If you know of how I can serve, please let me know. I can go anywhere.

May the great spirit be with you always.

Sincerely,

Marilynn Hughes
