Dear Mr Mankiller:

During the week of May 3, Kansas will be proudly hosting our twelfth Kansas Industrial Site Selection Tour. To date more than 165 companies have participated in this program.

Your company has been one of those specifically selected to participate in this tour of six communities located along the Kansas Interstate I-70 highway corridor. We believe that this area offers distinct advantages to companies such as yours. The tour will visit the communities of Topeka (population 120,000), Pottawatomie County (16,000), Manhattan (38,000), Junction City (21,000), Abilene (6,500) and Salina (42,500). During your visit you will have the opportunity to visit with successful business executives like yourself, community and state leaders and Kansans who comprise one of the most productive labor forces to be found anywhere.

We'll also share with you detailed information about our incentive programs, state funded employees training programs and financial assistance that's available to companies for expansion and relocation purposes.

My invitation to participate in the tour includes your round-trip airlines ticket, lodging, meals and all transportation while you're our guest in Kansas. To indicate you'd like to participate, simply complete the enclosed registration card and return it by Thursday, April 8. We certainly look forward to having you as our guest in Kansas!

Sincerely yours,
