The upcoming election scheduled for April 17, 1994, in South Africa will undoubtedly be recorded as one of the significant tests for democracy. The stage for this test has been set, and the important question before us now in the United States is if we, the leaders of the free world, will be significant players in this drama. Based on the extraordinary commitment of so many capable Board members to date, I am confident that "SAFE" will become the catalyst and the vehicle for enlightened and generous American participation in this process.

Please feel free to call upon me directly if you wish to discuss this further.

Thank you.

Yours sincerely,
