Dear Wilma_____

The news of your illness affects and touches many of us. I am relieved after talking with Rita several times that you are recovering. Something like this can happen so fast - and change our life so directly - that it's hard to adjust. I am very, very happy that you'll be all right.

The Women's Conference "Empowerment '93" has plans to show the video on you from Denver, which was well done. And I plan also to talk about you, as a model for us. We certainly need more women in elective offices everywhere!

Please take care - go slowly - in your recuperation. We need you to be healthy again. Wish we lived closer, so I could see you now and then.

With love.

Mary Lou Cook
