Enclosed please find our final letter to Colleen, the final Letter to the President and President Freedman's response. Since the President has invited our suggestions for individuals to fill the vacancies on the Committee, I would appreciate any suggestions that you may have to offer. I will provide a short bio on each suggestion to the President, so please provide me with any background on your nominees (The Alumni Office may have additional information to supplement your background.)

I have enclosed my business card with phone numbers and my address. I look forward to hearing from you by the end of the month.
