Anita Cochran, Assistant
Chief Wilma P. Mankiller
P. O. Box 948
Cherokee Nation of Oklahoma
Tahlequah, Oklahoma 74464

Dear Ms. Cochran:

Couple of years ago when I spoke with you, I also, supplied you with some information on the illegal collecting of I.R.S. taxes. Now that they are trying to intimidate people into paying taxes. I am sending along a petition that will help to get our people to sign and send along to Congressmen. If, we can force them to abolish the FEderal Reserve and I.R.S. Our country will have a great start on healing and gaining our freedom.

Arizona and Wyoming are both desperately trying to give the States control of the Reservations and Territories. If, they are ever given full control our people will be doomed. As in the 1960-70 area when they planned a war on our Indian people.

QUOTE: One of the policemen in the Pinetop, Arizona area told my husband that, "When the upheavel started they planned to hit the Arizona and all Reservations and not leave one Indian alive." My husband came home mad as could be, and said the Communist S.O.B. he didn't know I was married to a Cherokee."

Could the Chief's of all the Tribes set up a training program to teach all our people their Rights under the Treaties and the Constitution of the U.S. which also, protects them, but since the Constitution is no longer taught in our schools, a few know their rights. I think that I gave you a copy of the "CONSTITUTIONAL LAWS", but if not let me know and I will send you copies. They are researched by Freeman one of our best Constitutional Teachers. I believe he also, has a school in Tusla.

I would also, like to join N.A.T.E. (Native Americans Tribes for clean Enviroument). I think Pam Kingfisher is head of that and if you could supply me with her address, I would surley appreciate it. They just closed down that horrible murdering mess known as Kerr-McGee in Oklahoma recently.

Sincerely,

B. Jean Miller
