

Washington with as many people as we can. The exact date will be determined later - for a good reason.

5. Enclosed is a simple press release. We need all the coverage we can get from the media: Patriot newspapers, magazines, newsletters, radio stations, etc. Mainstream media will ignore us for as long as they can and when they finally do cover us, they will do everything in their power to discredit us and our information. Be prepared for the backlash, I am. But I will die standing on two feet before I live my life on my knees like an animal or like they do in Red China. No way.

6. Don't expect any help from Henry Gonzalez. His HR 28 is just another smokescreen and I am so disappointed. Enclosed is a copy of a letter from him to an individual; Eustace Mullins has the original. We can't count on anyone but ourselves. Remember the lesson from Zoe Baird: The roar of the American people stopped the elite in DC dead in their tracks. We can do this but we need 30+ million signatures and we need to be a cohesive, unified body out in the public's face.

7. If you own a business, please don't hesitate to put these booklets out where customers/clients can have access to them. We have nothing to hide or be ashamed of. We have the truth. We are not doing this to promote any political party or agenda. We are doing this to stop the NWO and save this country from becoming another great civilization that was destroyed from within. We can bring those Perot supporters, millions of them, to support this effort, but we must all do it together.

8. By the time you receive this, we will have already started our picketing [unless it snows and we'll do it the first good weather day after that]. The cost of this first run is 17.7 cents each. Our next run depends on the number ordered; the more we order at one time, the cost continues to go down. If you want to order the booklets, call me; if you can get them done cheaper in your area, call me and I'll send you a clean, original master so your printer has something good to work from. I'll send you a copy of the UPS tag later so you can reimburse me for the shipping. It would be nice if we could get them down to less than \$.10 each. I know money is tight. But if Clinton and Co., have their way, what money we have when the UN comes calling won't do us much good. I want to thank from the bottom of my heart, each and every person who sent donations from all over the place to help get the initial cost of printing down as much as possible. Thank you.

Donations will roll in at your picket sites and you can collect them within your organizations. That's one of the reasons why I thought of this separate petition sheet, more people than you can believe know about this. Besides, I always ask people, "How bad do you want to get rid of the income tax and straighten out the currency problem and boot out the money swindlers?" I want it so bad, I'm willing to stand out in front of that "FED" in Denver every day until it's time to leave for Washington. I want my daughter, my friends,
