Mr. Robert Zdenek
 Program Officer
 Annie E. Casey Foundation
 One Lafayette Place
 Greenwich, Connecticut 06830

Dear Mr. Zdenek,

I have recently learned of the interest of the Annie E. Casey Foundation in visiting the Cherokee Nation from Tom Rhodenbaugh of Christian Children's Fund. As you know, we collaborate with CCF in a number of the rural communities here in Eastern Oklahoma. We are quite proud of our accomplishments over the past few years in building a diversified economic base, expanding preventative health and social services to our families and children and expanding our tribal self-government.

We believe that our experiences, particularly those that have involved collaboration with Christian Children's Fund in support of isolated rural Cherokee communities, may be of interest to you and other representatives of the Foundation who, we understand, are exploring possible rural program models applicable to Native American populations.

For this reason, we want to invite you to visit with us to review our child and community development efforts, particularly those in some of our more isolated communities and explore possible collaboration with us. Of particular interest, is our educational enrichment and youth leadership development programs where we believe your experience and our interests must appropriately overlap.
