

Un-hum. George Douglas Guess. And the baby is Sequoyah, he's twelve years old. Sequoyah Guess. They go to school in Kansas. Doing pretty good in school. They like it in school.

(Your wife and your children, they live up there now?)

Uh-hum.

(You all live up there now?)

My wife is sickly anymore. She's not well. Been in the hospital several different times.

(Uh-huh. What does she have, Mr. Guess?)

Well, the first to start with they took her to Shawnee along about '39 and '40. Stay over there about 18 months and then come home. She was about half way well.

(Was that over at Shawnee, Oklahoma?)

Un-hun. And she's been in Talihina.

(Oh yeah--un-huh. Did they ever tell you what it was?)

I believe they said it was T.B. Looks like she's alright now.

(Well, that's good. A lot of times they have to go to a sanatarium before they get over it.)

Well, I took her over to Vinita and they give her treatment over there. She come put near loosing her mind some time ago, you know, but she's alright now. (Probably nerves and things.)

Nerves and first one thing and another. That's right.

(Well, that's good. I'm glad to hear that and that she's back home and doing alright and everything.)

Well, she's about half-way well, I guess.

(Uh-hum)

She does very well.
