

cation on that. Since it is outside the city limits, to get it approved. So everything that you can include in this application that's justification for these units.

(Participant, lady:) Now what page should that go on?

Mr. Clement: Oh, it doesn't make a whole lot of difference. Just..just where you might put it just so long as you get it put in there.

(Participant, man:) Now if we get some housing units in the (not clear) of Binger then we would be in the city limits, wouldn't we?

Mr. Clement: Well see Binger, Binger doesn't have a housing authority.

(Participant, man:) Binger has a Housing Authority.

(Participant, lady:) Yes we have it. Gracemont doesn't.

Mr. Clement: Gracemont, you wouldn't have any problem but where there is a Housing Authority. You decide to go and site there well you better let.. better let us know. Before you progress too far. And let's get a legal reading on it. It might take a resolution by this board that's inactive to say yes it's all right. Than for the city to say yes it's all right. Because the formal law reads, one authority cannot operate within another jurisdiction without the approval of that authority.

(Participant, lady:) Binger is just outside the city limits.

(Participant, man:) The Binger location is (not clear is outside the city limits.) (Conversation)

(Participant, man:) It just lays right adjoining.

Mr. Clement: Well the way the resolution reads the city limits are one mile out. So this would get you...

(Participant, man:) (Not clear) permission to that Housing Authority. But they have done nothing to organize and I feel sure that they will welcome us with open arms.

Mr. Clement: (not clear) And help them sell theirs.
