

therefor you and you not. You get sick, lot of people say, well God punish people like that. I never could believe that way. I always believe in God is so holy, so good. He done everything equal and it's us we make changes every ten or fifteen minutes. We go through life and suffer for it in lot of ways. I don't believe God punish. I believe God's good all the time. It's this Satan, is the one makes us sick, makes us tears, makes us hate one another and our old people used to say be careful, you got mind, use it right. Use it in good way and live a good life, be honest. If your word ain't no good, you're no good no time. That's what they used to preach. And I try to live that way myself and I know lot of good people, I've got lot of friends and I think they're all good people and I hope that they can stay on this earth good many years.

DISCUSSION ON THE FAIR DISTRIBUTION OF MONEY CLAIMS

(How do you think, Mr. Whitehorn, that a fair distribution of this late claim how do you think you could distribute this money, this late claim, that you've got, what would be a fair way to distribute it? Think would be the--could be done?)

Well.

(Are there lot of full-bloods still living?)

Well, there's not too many. I imagine all the allottees together, the full-bloods I don't believe there's sixty of 'em.

(Really)

That's right. I don't believe--'course there's lot of inherited ones. The older one died they inherited it, but the original allottees I don't believe there's sixty. So, I think the government ought to make changes and see the right part of it because our chief gives
