

they were armed soldiers. Then all at once, the soldiers began to fire at them Sun Dancers, Comanche Sun Dancers, and shot them all down, just wiped them all out of there. And one of the Sun Dance Leaders, one of the men taking part there, in fact it was Black Otter himself. came to some time later. When he came to, a white man sitting over him and spoke to him. It was Horse Pete Jones, interpreter for the military troops at Fort Sill. He told, when, Black Otter began to stir around, open his eyes, he told him, yeah you (Comanche Language for a couple of sentences) which means - "Lay still, Black Otter, don't move, they have already killed you, lay still." Then Black Otter realized that the rest of the, his fellow dancers, Sun Dancers were laying there, all dead. And it had been thought, I guess, that he was dead too. But he began to stir around Horse Pete Jones was watching him. And so, but ah, the rest of them including Black Otter's brother had been killed and hauled in the ambulance wagon back to the fort. And deposited there in a hospital and morgue there. Also there was a morgue. So Black Otter said he just discontinued his Sun Dances, he didn't hold anymore Sun Dances and although he took up later on he took up other Comanches in fact, I believe he became a user of this peyote later on. But that is just a little here that we will say about the Comanche's worship of the sun and also their ways in which they use this Sun Dance, not as a healing ritual but as a ritual to foresee the coming events. Maybe, one of these and which is now, I believe they all use the same song that I will put on now. And Bird's Head, I believe they first used it, I believe they all used it because they all seem to know it, and I'm going to see if I can't maybe put part of it on here as much as I can.

(SINGS INDIAN SONG)

#### STORY ABOUT LOST BROTHER

Now, which bring me to mind another song here. When one of my relative a generation back, got into a battle, him and some other Comanches got into a battle with some whites here in Texas. And during the fighting this relative of mine
