

"Green Country" and all that this past spring.)

Right. And we haven't had any real wide, you know, for ourselves, advertising campaign and we never would have if we didn't ourselves.

(You need to advertise with airlines and everything else?)

Uh-huh, you need to really get it spread around and we don't have the finances to really put out an advertisement about it. . . if that's what it takes. We wouldn't have been able to put out as much as we did, if we didn't have the help we had. See, because of Keeler's connection with Phillips, he has sent down half of his Public Relations Dept., to help us out. He sent down book-keepers to help me set up a new set of books.

(Oh boy, that's good.)

So we have free coverage over KTLQ, I mean channel 8, which one is that?

(Channel 8. . .? I think he has a part in channel 8, doesn't he?)

Lake, James Lake, has given us. . . .

(Is James Lake out of Muskogee?)

Uh-hummm, he's given advertising on his station in Tulsa and Oklahoma City, WKY. Last year they sent us a canceled bill which amounted to ten thousand dollars for T.V. advertisement.

(Lake has a part of the newspapers too, doesn't he?)

Uh-huh.

(Tulsa Tribune and Tulsa World?)

Right, and they've given us a lot of advertisement. So we've got a lot of publicity, through contributions.

(Well that's good, I hope to see it go because I realize there's criticisms flying back and forth.)

Right.

(Right and Left.)

Sometimes I want to get right in there.
