

(What about your son? Do they give him enough help to go to school?)

No, they don't. I asked for help from Mr. Statton, he wouldn't give it to him and said he is suppose to buy with it--(what they give him). When John Brown was chief, he signed his name on it and told me to asked for clothes for them, they told me to bring my husband's weekly allowance (four weeks) first before they gave it to the. He said he couldn't give it to Sonny--the one going to Okmulgee Tech, just to the one going to public school or government school. Right now, my girl needs coat and other things, but I haven't been to see them.

(What do you think about kids going to school now, and the days you use to go? Is there a lot of difference?)

I think they are doing good now and they go all time 'cause they have buses now.

(Do you work?)

No, I don't work 'cause I don't have education and don't know anything.

(If they was to have Adult Education close around here, would you try to learn something?)

Yes, I'd work, if they don't think I'm too old. I'd like to get a chance.

(Now you have to do something to make a living, that's what this Indian Education is for, to help the Indians--un-educated Indians like me. (Laughter) You know most of you are backward, you all won't say anything. I'm kinda backward too, but if I want something I really speak out. (Laughter) Did you ask for help to fix the house up?)

No, not yet 'cause they might think we're too old and I'm afraid we might not pay it off and I heard from some of my church members say, what's the use fixing old house up and won't let them have it. We have to haul water and its no good 'cause sometimes we have no transportation. I heard it was going be fix it around 1970 (about digging well). It's no good when you don't have water.

(I think it was \$3,000.00. (If your income is \$3,000.00), I think they raise it up to \$5,000.00. I think you pay what you can pay about payments.)

Where do you asked about the loan to repair the house? Same people you see about housing?

(I think so.)

They told us to see Charlie Brown and housing was different deal.

(Archie told my mother about a loan to repair the house with, to go see BIA in Muskogee--I'll find out for you. They may have different man for that. I'm not sure, but I'll write to you and tell you.)

If I go see Agent I guess they'd tell me.

(I think so. They should know.)
