

(In English?)

wate.hi'wəw

In Indian. They call him wate.hi'wəw They just kidded him.

That means "colored man." And there was a little colored girl and they call her white girl. They used to turn their words around. And they say they used to get real crazy. They used something that make them crazy--some kind of medicine.

(What did a man have to do to become a member of their lodge?)

I don't know. I don't know that far.

LODGE MEMBERSHIP EXPENSIVE

(What about these other lodges--could anybody join that wanted to or did you have to be invited?)

Oh, some women used to dance for their brothers or their fathers.

I never did. I never did dance. That's why I can't dance the Gourd Dance. I've tried it, but I can't. They got me over here-- a Kiowa women call me to go dance with her nephew, and I couldn't. I couldn't get in. I couldn't keep time with them.

(How did your husband get to become a member of this one he was in?)

Well, it's according to the ages. They used to have what they call--they used to have been through with that--they used to call them their brothers. And they used to gather them. Gather these-- (unintelligible phrase) And it costs us. I don't know how many times he come home and want a black shawl or want a quilt or money-- They used to ask for it, I guess. They used to have to give lot of things. Yeah. They didn't dance for nothing.

COOPERATION OF LODGE BROTHERS

(Well, back here in 1938 and 1940 when they were having these last two Sun Dances, did they still have these lodges at that time?)
