

Just moccasins. And his sister weaved his sash. Yeah, and she fix that apron over here. It had an eagle on it.

(There was one up there this summer that had an eagle on it.

Was the one that she fixed for him, was it in sequins?)

Yeah. Oh, it was pretty.

(What ever happened to those things?)'

We buried him with them.

(What about his quilt--did you have to make that for him or did someone make it for him?)

His brother-in-law furnish all that.

(Every year are there some Oklahoma Arapahoes that go in there?)

Yeah, they go in there. And there's several of them here that's

supposed to go but it takes money, I guess. It takes money for

them to go up there. That Benny Little Raven and Isaac Smoker

and one of the Edisons. And then there's some more down at

Geary (?). This Benny Little Raven, he pretty near got through.

Six years ago we tried to get him to go up. And he won't go.

He want to wait till next year. This Joe Hoof, he was supposed

to go this year, but he put it off. He said he was going next

summer. I don't know whether he'll get to go. He's one of our

committeemen now.

(I was wondering about the age of the persons that go in. I

was wondering how young a person might be.)

Some of them boys up there fifteen and thirteen goes in. Yeah.

Real young kids goes in.

(How old a man might go in?)

Oh, any age, Any age goes in there.
