

Cherokee.

(In Cherokee Nation. Well 'let's see how far west is it then to the Creek Nation?)

Well, that Creek it comes in, somewhere over around about Oktaha, over in there. Have you ever been to the place where they're hunting the Warm Springs battle round over there?

(No, I haven't.)

I think that's -- I seen some Creeks round in there. (Sentence not clear.)

(Now what little I know about that old historic site and the Battle of Honey Springs is just what I've read. Now, I haven't talked to anyone.

Now sometime I wasn't--(interruption) ..)

(Name not clear) used to live over there. Heard him talk about it. Go out there and find them bullets and all that you know.

(Well.)

The only life I've ever heard about there.

TAYLOR STAGECOACH INN

(You know I read something about the old Taylor Stagecoach Inn but beyond that I just saw it mentioned in the paper. And they said it was down in this part of the country at one time.)

Yeah, it's down south and east of McLain. Detlet now he would tell you.

Down around pretty close to where he was raised.

(Well, it must have been one of the first places to have established in this country then.)

It probably was.

(Yeah from what I've heard.)

I think there's where they changed teams or something there. Ma, she'd been around quite a bit and heard quite a bit about it, you know.
