

And about the land that was allotted to us, my dad didn't like it but they gave it to us.

(Why didn't he?)

Lots of Indians didn't like it, even Louis Mitchell, they wanted to do as they wanted to. No restriction. But mama and Alex Posey helped and they got it for us. The land they gave me was no good. Turner got good land. Mine is in Hughes county.

(Do you still have it?)

No. They told me if I sell it, I kept selling it, they told me George, my husband, would get disable relief on and on.

(Did they tell you to sell your land before George could get the money?)

No, where we lived--where mama used to live, I paid off my brothers. I sold 80 acres to do that. I now get little money from mineral. It gets pretty small in winter. I get it for gas lease. I get social security. They put George on welfare but it got too small. I got little bit from welfare (two months) and they quit. All them people know what I get. They all know everything.

(They know everything.)

Well, they take care of me and pay for my medicine and shots. It's good now I guess where they are helping me. It was good days in my young days though, better days.

(Well, that's good.)

Well, it's good, but right now if I had to live like that, I'm too old. I'm spoil now, things being given to us. (laughter)

(I guess since you can't work it's better like this now.)

If something was to happen and all this stop, I guess we have to work (laughs) and I know high blood pressure medicine I'd fix it and drink it. (laughter)

(Use your old remedy?)

I'd put it in cabinet and drink it. (laughter)
