

white riff-raff--they get these Indian girls. Help 'em get drunk on spray paint, etc., and to to the park, do what they want do. One girl of 13 or 14 I sent after was with three men when I found her. She didn't have a stitch on. Canton is a very bad environment for young girls. I try to get the problem away from there--into boarding school or foster home. Anything to be away from Canton.
