

you know my oldest boy, he lives in Lawton, he took him in and bless him and then he become a member of the peyote members, and then in the morning I have to give-away for him because he was taken into that group, you know. And I have to give things to the people, you know. That are all in there. I give them present, you know because my son becomes a member of the peyote tribe. That's the way it goes. If you go in the meeting, if you want some of your friends to join, or your sister or your brother, to join, they take you in you have to..but I see that there's a lot of people don't give away like that...just become a member. I had to give-away for my boy.

(Are there white people members?)

White peoples? I don't know, but I heard these eastern tribes, you know theres lot of them married to white people...I heard they all go in meetings with them around up east, you know. They go in the meeting and they say some of them sing. Some of them could sing real good. Sing all these Indians songs.
