

See that wide culvert there?

(Yeah.)

Now that was known as the O-T Trail. That's what they called it.

(O-T Trail.)

Yeah, it went from here right straight west about three miles and then it went back south and back west and then back south into Collinsville.

(Yeah.)

They called that the O-T Trail.

(Well, this must be an old part of the country for what it is.)

What that stood for was Oklahoma-Texas.

(Yeah.)

(Well, Oologah as a town I--it's been bigger than what it is now, hasn't it?)

No, no, no.

(Is it very big?)

Well, since they put this dam in here, the land got so high, you know, they--it's--

(Well, did they have more stores there than--at one time than what they got now?)

Well, let's see--there used to be a--well, we got two there now and there used to be about four there. And they had a drug store and they used to have a bank there. But these people now banking. They all go to Collinsville places, like that.

(Yeah, that's right.)

(All these little towns suffer the same thing.)

Turn to your left right up here.

(I'll tell you let's see--let's go right straight over there.)
