

Oh, we just had corn, potatoes, onion, and melon. We just had a little garden.

(Did you ever help her in the garden?)

Oh, once in a while I helped her.

(Did they lease out your allotment...their allotment?)

Um-hum, most of it is leased they worked a little bit.

(Do you know who the lease man was?)

No.

(What did he use the land for?)

Most of the time he plants cotton, corn something like that. He kept the corn.

(Do you have an allotment?)

Yes. I just got eighty (acres.)

(What type of house did you live in?)

Oh, my first?

(Before you started school?)

Oh, it was a log house and after that we moved up on the hill. We built a two room for us. Oh, there was...I don't know what year we built it.

(Where did you get the house?)

Oh, the government built it for us.

(Did they do that for a lot of Indians?)

Um-hum. They built us two rooms.

(Did it have windows in it?)

Yes, it had windows. I don't know where they got their windows from Chickasha I think. There wasn't no lumber there. They had to haul it in a wagon. I can just remember that.

(Did it have glass in it too?)

Yeah. I don't know what year that was but I remember.

(What type of furniture did you have in the house?)

Oh, just furniture.
