

How many people are involved in that?)

Oh, well...like we got two tracts, 160. Just me and my sister. We got a place over here, got five shares. We come in that too, forty acres. I don't know. We used to make a cash lease. We got along about 300 dollars. But, ...The agency leased it, without our signature. We didn't sign. Say, well, what they wanted, they wanted to meet the ...they wanted to meet it, this boy couldn't meet it. Well, he come close to it. I was willing to accept it, you know. It was more than we used to get. Couldn't do nothing about it, so I don't know what happens. They just leased it out. I don't know what we get. I don't know nothing about it. He puts a little wheat in there, maybe cotton. (Joe, on this tribal committee, are the Wichita all by themselves, or are they together with other tribes?)

Just Wichitas. See, the Caddoes, they have their own tribal council, and the Delawares. I don't know what's going on.

(Is there a council of all three tribes?)

Separate. They have a council at Binger (Caddoes). I don't know where the Delawares have theirs. We have our council down here at the agency.

(What do you do about the tribal lands up by Riverside school, that the three tribes have together?)

Well, they (tribes) lease it, and they have. I don't know how they take care of the money. They get money every year. I don't know whose got the lease, but somebody's got it. They pay that money. That's what I mean, lots of money got lost in that. From the time...I don't know when Riverside stop using cattle, they used to use it one time. But they stopped it, they quit raising cattle. I don't know how that money went. Well, what they should have done...tribal council did do that, but seem like they have no authority. Maybe they did, but somebody else taking it, one man, maybe two. Yea, lot of money got lost. So when they asked for it, said...government didn't have enough money to pay the salary on some of them. But I told them, I don't think we got the right to do that, you know, spend some money over here, when the government got money. What we should do, we should go back, make them pay that money back.
