

take it away. No for children to keep up there for school. They all want to go to the town school. Maybe it was right, I don't know. But that's were they find more grades..at the towns schools. Where they graduate and go to college like that. This is where they learn..find out what they teach in a town school. They started it because they was lots of Indians..they wasn't going to no school..that's hwo come they started it. That was a good school to me. To me of course. I didn't much care. We couldn't all run around like they..now days..we just stay at the same place.

(Did you ever go to town?)

Yes, there was a town there, about six miles away. They take us up there. They have a little, they call it talley-ho. Some like..seats on that side..long seats on both sides. Those that have money they can go and they take them to town. About afternoon and they get back about four or five, but they have to use..they have team to take them to town. Later on they make this railroad and there was a Mountain View..this was Anadarko, and Ft. Cobb, and Carnegie and Mountain View. The train, they put up a train. In one town they was having an entertainment, something like that. Well they brought us all in a wagon.. Mountain View and that was the first time we ride the train, all of us. From Rainy Mountain. And we all had our, you know..one school had their program and it's over and the next the other program. Oh, I was..I don't know how my father heard about it but he was down there and when we started back to the train to go back there he was poor thing. He had a sack of things for me to take back. Candy and ribbons. That time we used to wear about an inch of ribbons and a yard long..and he was there and I was so glad to see him. So we all went back and that was the first time the train was put up to Mt. View, so we all had our first ride on a train. Oh, we sure liked it. All got back to the school. They treated us pretty good. We enjoy..

(How often did you go to town?)

When..might say once a month. But to the store every weekend. If we not caught talking Kiowa six times, maybe three or two times. Those are the ones can go to
