

Yeah. I took - when we lived out in the country we took them every Church day. Sundays we used to have Sunday school every Sunday. I don't know if one of them goes to church now.

(Did they like to go then?)

They didn't but they had to anyway.

(Did they get all dressed up to go?)

Just plain 'ole overalls, clean overalls good enough then.

(Did they wear shoes?)

Sometimes.

HOME REMEDIES FOR VARIOUS AILMENTS

(Are there any roots or plants or anything that are good for medicine, that grow around here in this area?)

I imagine there are but I don't know them.

(You never used any of them?)

I used them but I don't know - for colds.

(What did you use them for? Like if they had an upset stomach or something?)

I never did have none of that. I just gave them Pepto Bismol. They didn't get sick like they do now. They didn't get sick--I know Linda's daddy had risings. Do you have risings on you? Well, we fed them. He can tell you that he ate, just raisins. Just raisins. That cured him. We didn't have no doctor - well, we had a doctor here, but my kids didn't get sick like they do now. Colds - for colds I just used Vicks and everytime we butchered a hog, I saved all them hoofs and I cooked them and I, well, I kind of crushed them up, tied them in a white cloth and made tea out of it. We dranked it. I drank with them, too.

(Was it good?)

It didn't taste very good but we took it. You know what that's for?
