

TYPICAL MENU FOR BREAKFAST OR LUNCH

(When did you start crocheting?)

I don't remember who taught me, I don't remember when I started, but I was crocheting when I lived in Weleetka way back in the 20's. '20, '21, somewhere in there. And I never did crochet until I moved to town. I didn't have time to crochet when I lived in the country. I had to raise a family and cook three meals a day and washing and ironing. I didn't have no time for nothing until I moved into town in '43. That's when I picked it up again. And I have been crocheting ever since then.

(What kind of meals did you fix your family? What did they eat for breakfast?)

Oh, you would laugh at what we had for breakfast. I would fry potatoes and fry a skillet full of meat. And I had a big bread pan about that square, and I fixed a bread pan full of biscuits every morning. And we had our own butter and we would have sorghum. That's what we had, fried potatoes, fried meat, biscuits, butter and sorghum.

(And you made your own butter?)

Uh-huh.

(What did you have for lunch?)

Oh, beans. Brown - I used to fix biscuits and cornbread for dinner.

(What did you have for dinner?)

Left-overs. We still do.

(You had your big meal in the morning?)

Yeah, breakfast and dinner.

DAILY ACTIVITY IN EARLY DAYS - FAMILY MEMBERS

(What would you do when you got through working - cooking for the day and everything?)
