

understand more surely that way we get along pretty good. We've made a couple of trips out there, and it was kind of a vacation like. So this last trip we had a wonderful time together. So I had a talk with their vice-chairman during the fourth. He visited me on the 2 of July. All day and the biggest part of the night. And he kind of give me some value information now and the way he's telling me the way that organization out here, better wait and that last time we were down there. Some of the things that took place werent mentioned but, well all done our best with \$38.00 to start with, when you people come there. But anyway, we enjoyed the trip. And I think everybody expect too much, that's what we said, don't expect too much when you get out there. So we would like to have a little extra money we gonna try to provide whatever we make through the car owners so that way when we get up there, we'd like the car owners to stay with the group, in case we get rations, in that way we know how much to get, so before we leave we talk more about it. So I'm looking forward to a letter or a contract or whatever they gonna give us. And Window Rock, I think, the one over there for Labor Day, so I want you people to keep this in mind. I think we gonna try to start our fund drive right after this Walters Pow-wow. So I'd like for you people to think about that.-- Drummers, is up to you --
